

THE COURTS.

FOR BICYCLES AND LIBERTY.

Assistant Corporation Counsel Townsend brought six witnesses yesterday before E. L. Paris, the referee in the dispute between the Park Commissioners and the bicycle riders, regarding the authority of the Commissioners to exclude bicycles from the parks. The testimony all went to show that horses often take fright and run away at sight of a bicycle, when nothing else will disturb them. Edward Wetmore cross-examined the witness. Mr. Townsend argued for the government until 11 o'clock. Mr. Wetmore objected, as he wished the reference to be ended soon enough to enable the owners of bicycles to ride in the parks this summer; but then the argument was continued, references given. SUITING GENERAL NEWTON.

Anthony Farrell has begun an action in the Supreme Court against General Newton as chief engineer and superintendent of the works for blasting the rocks at Hell Gate, to recover \$50,000 as damages for injuries alleged to have been sustained by reason of the negligent and unworkmanlike construction of the site leading to the explosion. Farrell claims that he has been injured for life, both his legs having been broken and his knees and feet crushed.
